

Theory Questions :-

=====

- Q1. What is java and explain the features of JAVA?
- Q2. Why java is a pure object oriented language explain any 5 reasons?
- Q3. Why java is not pure object oriented explain any 2 reasons?
- Q4. What is JDK , JRE and JVM and explain their differences?
- Q5. What is compiling and explaining their roles?
- Q6. What is JVM and explain their role?
- Q7. What is byte code and what is the benefit of byte code?
- Q8. What is a class file and when is it created?
- Q9. Why is java platform independent?
- Q10. What is platform independence?
- Q11. Why is the main method static?
- Q12. Can we overload the main method in Java?
- Q13. Can we override the main method in Java?
- Q14. What is the command line argument and why use it?
- Q15. What is the Scanner class and why use it?
- Q16. What is data type and explain all types of data type?
- Q17. What is constant and literals in Java?
- Q18. What is the difference between primitive and referential data type?

MCQ Questions :-

=====

Q1. What will be the output?

```
int x = 10;
if(x > 5)
    if(x < 8)
        System.out.println("A");
    else
        System.out.println("B");
```

- A) A
- B) B
- C) Error
- D) No Output

Q2. Which operator is used for decision making?

- A) +
- B) %
- C) ==
- D) &

Q3. What will be output?

```
int a = 5, b = 10;  
if(a = b)  
    System.out.println("Equal");
```

- A) Equal
- B) Error
- C) No Output
- D) Runtime Error

Q4. Output?

```
int x = 15;  
if(x > 10 && x < 20)  
    System.out.println("Yes");  
else  
    System.out.println("No");
```

Q5. Which is valid if statement?

- A) if x > 5
- B) if(x > 5)
- C) if x > 5 then
- D) if(x > 5):

Practice Questions :-

=====

Q1.Write a Java program to check whether a given number is positive, negative, or zero using if-else.

Input:

Enter number: -5

Output:

Number is Negative

Q2.Write a Java program to find the largest among three numbers using nested if.

Input:

10, 25, 15

Output:

Largest number is 25

Q3.Write a Java program to check whether a year is leap year or not.

Input:

2024

Output:

Leap Year

Q4.Write a Java program to check whether a number is even or odd.

Input:

7

Output:

Odd Number

Q5. Write a Java program to assign grade based on marks:

- 90+ → A
- 75–89 → B
- 50–74 → C
- <50 → Fail

Input:

Marks = 82

Output:

Grade B
